Message from the Chairperson

I am happy to present 15th Annual Report of Credibility Alliance. It has been a long journey towards promoting voices and credibility of the voluntary sector among various stakeholders. Being credible is simply the perception of being trustworthy and believable. The question about how NGOs develop and retain public trust and credibility has plagued many NGO activists over the last few decades. Credibility Alliance has been pursuing its mandate to work towards building the stakeholder confidence and credibility of Voluntary Organizations through promotion of transparency, accountability and good governance practices. The spirit of Voluntary Organizations to get accredited by Credibility Alliance is based primarily on their commitment towards accountability and transparency which is further, enhanced by Credibility Alliance through various communication mechanisms.

This year Credibility Alliance completes 14 years as a pioneer in the field of promoting Good Governance, Voluntary disclosure and Accreditation. This is a special year as there has been a substantial shift in the Accreditation scenario. It has moved from the space of building acceptance to gaining popularity due to the Supreme Court order on NGO Audit and Accreditation as well as the bubbling CSR environment. The intention of Credibility Alliance over the past one year has been to position itself as an expert on CSO Governance and Compliances, especially in the light of its experience of accrediting organizations over the past thirteen years. The organizations' intention has also been to become a connecting link between the voluntary sector and the corporate sector and a knowledge hub in areas of Tax, FCRA procedures, CSR compliances etc.

In the changing context lots of discussions and discourse is taking place around the concern for shrinking space for civil society. There is need that national and regional networks of voluntary organizations must take the accountability debate to their membership through a planned effort so as to strengthen their internal systems and processes based on good practices. Together, it is possible to change the character, efficacy and relevance of the voluntary sector today in public perception while refocusing the need for a critical mass of credible organizations around the nation.

Executive Director's Message

The year 2019-20 proved to be an eventful and challenging year for the Credibility Alliance (CA). Major focus has been on the increasing numbers of accredited organisations. The number of organization which have been accredited and certified by the CA has increased over 800. The organization has also entered into a partnership with CASA India for its partner's accreditation under CA Norms. CA participated in various national consultation and orientation workshop for its members and CSOs.

This year CA has been awarded the membership of ICFO- international committee on fund raising organisations, which is global network of charity monitoring organisations. Now CA is the India partner of ICFO. Credibility Alliance which initiated this idea of Self-Regulation fifteen years back conceived an idea ahead of its time. Now with such a ruling the importance of accreditation and regulation has substantially increased.

In the upcoming year, Credibility Alliance intends to focus its efforts more on revisiting norms and standards for CSO governance and accountability, capacity building initiatives for various stakeholders and enhanced interaction with the CSR space.

I would like to take this opportunity to extend our sincere gratitude to CASA India, for their unconditional support and encouragement in the initiatives of Credibility Alliance. We are grateful to our Board Members for their continuous guidance and support. We would also like to thank all our partners, members and associates who have constantly supported us in all our endeavors.

Last but not least, I would also like to recognize and thank our CAC members, Assessors and team members of Credibility Alliance for their continued hard work and commitment. With this we would like to present the Annual Report 2019-20 and once again thank all our partners, donors and supporters.

About Credibility Alliance

Credibility Alliance (CA) is a consortium of Voluntary Organizations and networks working for the promotion of Good Governance in the Voluntary Sector and enhancement of its credibility in the eyes of the stakeholders. CA intends to promote transparency and accountability in the Voluntary Sector through self-disclosure mechanisms. Following a two-year long extensive consultative process involving more than Fifteen hundred Organizations from across the country, the Alliance emerged as an initiative from within the sector and was registered in May 2004 as an independent, not-for-profit organization. Currently there is very little mechanism within the Sector to give assurance about an organization to its stakeholders and to the donors it works with. As a result, VOs having good track record goes unnoticed. The Sector is also generally questioned for lack of accountability mechanism. Credibility Alliance addresses this issue, primarily through Accreditation of voluntary Organizations, which is carried out through a structured process, whereby CA recognizes an organization which complies with the norms developed by CA, which assures that certain basic parameters are in place in an organization. Credibility Alliance has been working to build and promote self-regulatory frameworks by defining various norms and standards for the Organizations to adhere to, and in doing so help them demonstrate greater transparency and accountability of the overall sector. Credibility Alliance believes that accountability of VOs is the corner-stone of good governance and an important pre-requisite for an effective democratic participatory process. A Voluntary Sector, which is responsive to the needs of the society, is democratic and transparent in its functioning, and is accountable to all concerned. To build the Credibility of the voluntary sector through creation and promotion of Norms related to good governance and public disclosure.

Vision

A Voluntary Sector, which is responsive to the needs of the society, democratic, transparent in its functioning, and Accountable to all concerned

Mission

To build the credibility of the voluntary sector through creation and promotion of norms related to good governance and public disclosure.

Objectives

A fast-emerging voluntary sector in our country is a major contributor in the development of Indian society. Hence, it's but natural that the rapid growth of the sector in terms of its size, number and resources has generated many questions on the credibility of its constituents. Despite this, the existing regulatory bodies in our country have made no efforts to set up adequate mechanisms or processes to assess the credibility of voluntary organizations in concrete and verifiable terms. Keeping this in view, the Credibility Alliance has been working hard to build and promote self-regulatory frameworks by defining various norms and standards for the organizations to adhere to and in doing so help them demonstrate greater transparency and accountability of the overall sector. This is achieved through:

- (i) *Establishing norms of Good governance based on participation, consultation, and Consensus;*

(ii) *Developing and promoting an Accreditation system for voluntary Organizations;*

Providing capacity building support to Organizations for enabling them to improve conceptual understanding of what governance and finance practices are necessary, what is the existing legal framework, and how to comply with the agreed Norms and accountability practices; and Conducting policy advocacy with government, the donors, the corporate sector, the media, and the overall public for ensuring better recognition of the highly credible work being done by the voluntary Organizations.

Core Programme Areas

Value Additions for Voluntary Organizations

- ❖ **Commitment to a set of Norms and recognition as an accountable, transparent and governance driven organization**
- ❖ **Building the professional capacity of the organization through networking Opportunities within a large membership base.**
- ❖ **Having a sense of accountability by bringing greater credibility to the sector as a whole**

Accreditation

Accreditation by Credibility Alliance is a process through which a Voluntary Organization is certified as an organization adhering to Accountability Norms and providing services of a reasonably good quality. The recognition helps the public and others to trust in the quality of its services. The Accreditation is provided only after ensuring that the organization adheres to certain Minimum Norms defined by CA.

Accreditation from CA help voluntary organizations to establish robust internal mechanisms for self-regulation, formally declare that they are transparent and accountable and are of approved standards, and in doing so enhance the credibility and autonomy of the overall voluntary sector.

Accreditation by Credibility Alliance provides the most significant assurance that an organization meets certain standards of quality in delivery of services. The Alliance has developed accreditation mechanisms and promulgated standards, which are frequently upgraded through a participatory process, to evaluate compliance by the Voluntary Organizations (VOs).

Accreditation as a process ensures that organizations are able to hold up a mirror to them to check whether they meet those standards of transparency and accountability, which are being considered essential for the survival of NPOs in the development sector. As part of this process, they may at times learn and build their capacity to comply with various legal and tax procedures or improve their processes of Board meetings and documentation. This not only ensures that they become eligible for Accreditation, but also improve upon their own procedures of internal control and regulation.

A total of Twenty-Nine organizations were Accredited during the financial year 2018-19. Out of those the largest number of organizations Accredited was from northern and western India.

Accredited organizations

During the reporting period all together 44 files were presented and 35 files approved for Accreditation under Desirable, Minimum and Basic Norms.

Central Accreditation Committee Meetings (CAC)

The Alliance has set up a Central Accreditation Committee (CAC) a group comprising of development experts from various fields and some Credibility Alliance Board Members. The committee comprises of specialists and eminent experts, possessing skills in the areas of organizational management, finance, and social work, which puts the aspirant Organizations through a process of rigorous scrutiny on the basis of the Norms and standards decided by the Alliance.

The committee takes a holistic view of an applicant organization on the basis of the documents submitted by it. Primarily, observations made by Accreditation Coordinator and the expert assessors are taken into consideration.

Capacity Building

Credibility Alliance focuses on the Capacity Building process to maximize its potential and sustain its work by adopting the existing best practices. CA plans the Capacity Building initiatives for the Voluntary Organizations by identifying and outlining the gaps in the sector, assessing the needs and finally instituting the programs to address those needs. 6. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
7. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence including the utilization certificates submitted by the sub-recipients, that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
 - Conclude on the appropriateness of Trust's use of the going concern basis
